***Response to Amendment***

The after-final amendment dated 10/4/2006 has been fully considered and entered into the Record. Claims 6-11, 17, 18 and 25-33 are currently active. All other claims have been canceled.

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Raymond O. Linker, Jr. on 10/20/2006.

The application has been amended as follows:

Claim 25. A chemically resistant radiation attenuation composite barrier fabric comprising a first ply having ionizing radiation attenuation properties and comprising a mixture of a polymer matrix and an ionizing radiation attenuant, a second ply [having] chemical barrier [properties and] comprising a sheet material including at least two polymer layers of different composition and exhibiting a permeation efficiency greater than 25% when exposed to the 15 liquid chemicals on ASTM F1001, and additionally including an electromagnetic field shielding ply.

***Allowable Subject Matter***

Claims 6-11, 17, 18 and 25-33 are allowed.

*Reasons for Allowance*

The following is an examiner's statement of reasons for allowance: the prior art does not teach the use of organophosphate hydrolase enzyme and/or oxidizing polymer along with radiation and chemical barrier article or a chemically resistant radiation attenuation composite barrier fabric comprising a polymer matrix and a radiation attenuant and an electromagnetic shielding ply. The article of claim 27 would be in condition of allowance because the prior art fails to teach a barrier fabric comprising a polyolefin matrix containing 40-80% barium sulfate with a spunbond polypropylene supporting substrate and a chemical barrier.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment which places this application in condition for allowance. During a telephone conversation conducted on 10/20/2006, Raymond O. Linker, Jr. requested an extension of time for 1 MONTH(S) and authorized the Director to charge Deposit Account No. 16-0605 the required fee of \$120.00 for this extension and authorized the following examiner's amendment. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
